

MDP ON DEFENCE ACQUISITION MANAGEMENT

Faculty of Resource Management

College of Defence Management

edm

Genesis

The need for proficiency in Capital Acquisition processes gained fresh impetus with the release of DPP 2005 and since then, CDM has been the only defence training establishment for institutionalized training for acquisition processes spelt out in the DPP. With the issue of DAP 2020, a need was felt for training on the same to officers of all the three services in a joint environment. The MDP on Defence Acquisition Management (DAM) is a two weeks duration course conducted every year. Since the course focuses on Capital Acquisition process, this course was suitably named as Defence Acquisition Management Course.

Aim

To develop qualified 'Acquisition Professionals' who can deliver and sustain efficient and responsive value chains towards planned defence capability build up.

Course Objectives

Understand the fundamentals of macroeconomic issues with particular emphasis on financial planning in the Armed Forces

Understanding the nuances of Defence Acquisition Management – Organization, processes & knowledge of various financial tools for informed decision making on Capital procurement.

Acquire an understanding of issues related to logistics in the Armed Forces for optimal utilization of resources

Understanding of evolved indigenized defence ecosystem
